

The iPACT® App System

“Simplifies Learning - Simplifies Teaching”

The **iPACT® App System** enables learners, of ANY age or ANY ability, to access content in a comprehensive, *research-based app system of instruction* – containing over 200 “connect-the-dots” UDL templates - directly aligned to grade-based educational standards.

Differentiate UP. Differentiate DOWN. Deeper Learning For ALL.

Scaffolded language-based templates, text-to-speech, recording options, annotation and study tools, choose a picture, take a picture, choose a video, enter text at varying text complexity levels, and more . . . video trimming, video annotation, customized pinch-to-zoom settings for specific user profiles!

Bonny LaRocca, Classroom Teacher, shares:

"The iPACT adds a whole new level of enthusiasm for learning because it literally *can be used with the entire classroom* of learners for any content area!"

Craig LaMaster, Speech-Language Pathologist from Sioux City, Iowa shares:

“The bottom line – T.H.E. P.A.C.T. Module System **should be taught in every private and public school in the United States!** All teachers should be required to take and adopt your system . . . Your 4-step structured teaching framework would **have a huge “imPACT” on the educational system in our country.** All colleges and universities that graduate teachers should teach T.H.E. P.A.C.T. as a required course in order to graduate.”

SIMPLE CREATION . . . Clone & Convert Instructional Content IN SECONDS!

Instructional staff and families can **transfer content** from one activity to the next in **LITERALLY SECONDS** using the iPACT’s unique “clone” and “convert” capability to guarantee *minimal content creation time* and differentiate instruction.

Suzanne Feit, Technology Specialist & National Trainer, comments:

“The iPACT App System is **simply amazing!** The ease of use and flexibility is nothing short of phenomenal.”

“The Common Sense Approach to Education” The WHAT, WHY, and HOW of Your Instruction

The **built-in resource bank** of educational standards, sample learning objectives, and lesson plan goals are *at your fingertips* for each of the hundreds of differentiated templates to laser-focus your instruction.

Catherine Woods, Director of Special Education, describes:

“The iPACT is THE app solution that finally *bridges the gap between special education and general education* for learners Pre-K to 21, using a research- based teaching framework, that allows all students access to core instruction based on the educational standards.”
